MEDICINAL.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Com-mencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

79 Dearborn Ave., Chicago, Nov. 7.

I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine.

D. C. MACK.

Brown's Iron BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indi-gestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

exhibited just before the breaking out of the French Revolution; but unlike the French aristocracy, who danced so gaily on the volcano ready to burst forth, we sit sulkily at the mouth of the crater, watching the rising of the lava flood, and silently devising the means of turning it into another channel, as the impossibility of suppressing it altogether becomes more and more evident each day. 'Before the end of the century every country in Europe will have to go through a fiery ordeal,' said a German writer to me the other day. 'Yours will be the last submitted to the test because not only the character of your government, but that of the people will help to retard the struggle. Nevertheless, it is unavoidable, and must come in its own good time, the same as any French Revolution; but unlike the French ertheless, it is unavoidable, and must come in its own good time, the same as any other.' As this gentleman is a writer of some renown; and has been deputed from Berlin to examine into the actual state of the social feeling existent in different European countries, his opinion is worth recording. The war now openly declared by those who are destitute of the necessaries of life against those who enjoy luxuries—"those who possess nothing against those who possess all," according to the wording of the French profession of faith which is being propagated at this moment—is beginning to be proclaimed even here; and it needs but to follow the police reports, and read the accounts given of the associations and organized gangs of thieves and burglars to be fully convinced of its gradual approach amongst ourselves."

A LUNATIC IN CHURCH .- While high mass dral on Fifth avenue Sunday morning there 68 King street. occurred an unusual scene that startled the worshippers from their devotions. A woman, who was subsequently ascertained to be deranged, entered the Cathedral and attempted to make her way up the middle aisle without stopping to pay the entrance fee at the desk, which is situated at the foot of the aisle. She was requested to pay, as she was not a pewholder. She stopped short a moment, glared wildly at the collector and then, without further warning of her intentions, grabbed the table, which was loaded with silver, and overturned it violently on the marble pavement. The loud erash reverberated through the building and was heard above the notes of the choir. The congregation in the immediate vicinity started to their feet in momentary dismay thinking that some one had fallen from the choir loft. Mr. Hart, the sexton and usher, seized the crazy woman and escorted her, wildly voeiferating, to the door, where she stood in the pouring rain for a while. She shouted herself hourse before leaving. The money which had been scattered in all directions was picked up and the excitement subsided into the usual quiet decorum of the solemn edifice. No one seemed to know her; she was a perfect stranger to the ush-

ers .- N. Y. Herald. A REMARKABLE LILY .- On the steamer Orinoco, which arrived Sunday from Jamaica, was a most remarkable specimen of the Eastern Lily of Bermuda, known botanically as of the class longiflorum floribunda. A plant of the same family, with over ninety city on the 3d instant. The plant on the Orinoca bears 145 blossoms, nearly all of which are in full bloom. The stalk, about one inch in diameter, is thickly infoliated with long leaves for its entire length, about three feet. Nestled in a cluster of these dark green wrappings at the summit of the stalk are closely grouped the stems of its numerous funnel shaped bloscoms, which fall over it in a cloud of white and yellow perianths, forming a hemispherical mass of flowers of about one foot radius. No specimen, it is said, has ever been seen in this latitude with over 100 blossoms.-N. Y. Herald.
